

We are registered ILA providers. If you have an income of £22,000 a year or less or are in receipt of benefits then you could get £200 towards the cost of learning and use your Individual Learning Account to pay your fees for some courses. Applicants must not hold a UK degree (or overseas equivalent), must not be undertaking any form of full-time or part-time secondary, further or higher education and must not be participating on any National Training Programme (Modern Apprenticeships, Get Ready for Work or Training for Work). Apply for your ILA as early as possible as you must have an ILA account in place before you can enrol on a course. Contact ILA Scotland on 0808 100 1090 or visit their website <http://www.ilascotland.org.uk/> for further information.
